

How to Sign Up Your Students on QuaverMusic.com

Each of your students can have his or her own **QuaverMusic.com** account and play for **FREE** at home and at school.

Here's how to make that happen:

INSTRUCTIONS:

1. Go to **www.QuaverMusic.com**
2. Click the **Sign Up** window in the upper right corner
 - a) Create a **QuaverName**
 - b) Create a **Password**
 - c) Enter a **parent** email address
 - d) Click **"Agree"** to Terms of Use
 - e) Select Avatar **Gender**
 - f) Optional Quaver Code
 - g) Click **Submit**
3. Log In using the **QuaverName** and **Password** created above

Now you're in!

We ask for a Parent's email address for a few reasons:

1. To let parents know their child is using **QuaverMusic.com** in class, and introduce them to all the great educational features available.
2. To give parents the ability to reset their child's password, if the password gets lost or forgotten. Without a parent's email address, the child won't be able to regain access to their account, and they'll lose access to all the content they've created on the site, plus any QuaverNotes they had.
3. To request parent permission to provide premium content and other features to the student, such as Avatar and Profile features. Without the parent's email address, the student cannot edit their Avatar or Profile.
4. To give parents control over whether their child may participate in chat and other social functions of the site.

While a parent email address is not required at sign up, we do strongly recommend that students provide one to get the most out of their **QuaverMusic.com** experience.

Your students can leave the **Quaver Code** field blank for now, unless you have already set up a **Classroom Code** from your **Teacher Admin Panel** for them to enter here. **But don't worry, they can do that later at any time!**

Please let us know if you have any questions or concerns as you and your students setup your accounts. Feel free to reach us at **info@QuaverMusic.com** or toll-free at **1-866-917-3633**.

We can't wait to hear what you think about **QuaverMusic.com**. Enjoy!

The QuaverMusic.com Team
